

Open Books Project

BE AN OREGON SCHOOL KNOW-IT-ALL

STATS, SPENDING AND MORE – ALL AT YOUR FINGERTIPS.

Here's a smart idea. Take all the nitty-gritty facts and figures about Oregon K-12 schools, and make them understandable and easily available to everyone – online. That's what we've done. It's called the Open Books Project. And with a district-by-district roundup of everything from achievement scores and spending to teacher experience and class size, it's helping Oregonians make smarter decisions about their schools. After all, knowledge is power.
